WEBSITES

MODERN WORLD WEB DESIGN

At Modern World Business Solutions, we offer products that make selling YOUR products or services easy.

We specialise in creating innovative technology that gets people paid with the right solution quickly and effectively. Whilst we can do this in multiple ways, there is nothing more vital and effective than your company website.

We have a super talented in-house team of developers, coders and designers that are ready and on hand to help you with your website project. Our team specialise in building high end quality Ecommerce websites that convert into hard pounds.

TELL US ABOUT YOUR PROJECT

Our CTO and his team were our secret weapon up until January 2022 and have been our secret to our relative success in what we do as a business. As the team grew, we thought it only fair that we give other business access and opened this department to our partners and direct to businesses that required support with building them the perfect website.

We will work with you, talk to you, figure out what works, what doesn't, what you like and what you don't, what your customers perception of you is and how you want to portray your image online and start to shape your vision into reality.

We offer brochure websites, landing pages, informative websites, and ecommerce websites. We can help you with large development platforms, bespoke CRM builds and Apps also, whatever it is that you are thinking, our team can help you achieve it!

Chris Pennington
Our CTO

LANDING PAGE

Whatever it is that you do as a business, or if you are just starting off and need some type of web presence to get started then a landing page might be the right place to start. A landing page is just that – it's a branded page that just tells the person landing on your page who you are, what you do and how to get in contact – nothing more than that but is always a great place to start with building your online web presence. A quick solution that gets you up and running with a website that you can build on.

from £10 per month

- Cost effective web presence
- Get your brand ranking on search engines
- Mobile friendly and responsive
- Turn around in 48 hours
- Just one branded page with your business information on
- Account managed direct with merchant

BROCHURE SITE

Our Brochure websites are our most popular websites, as standard we build these with 8 pages. This should give you enough webspace to promote what your business does and let your future customer know all about your products and services. These websites are carefully designed and structured with you to create the perfect tool for you to promote your business online.

from £49 per month

- Designed from scratch, built on WordPress
- Mobile responsive
- Lead time of 10/20 days from sign off
- Account managed direct with merchant
- 8 pages

E-COMMERCE

Let's make you a website to earn you money!

Our Ecommerce solutions are built bespoke for you and your business to ensure that we get the best results possible. We will work with you to create a user-friendly ecommerce website that converts and represents your business brand just how you want it.

Working with us at Modern World Business Solutions for your company Ecommerce website means that you have a wide choice of payment gateways and acquirers to integrate into.

This means that we can build your website for your new HIGH RISK business and attach a gateway and acquiring solution to it all at the same time.

from £99 per month

- Integrated gateway included (12p per transaction not included)
- Unique and bespoke E-Commerce build
- Lead time 15/30 working days from sign off
- Allocated account manager
- Mobile friendly and responsive

HIGH RISK PAYMENT PAGE WITH INTEGRATED GATEWAY

We at Modern World Business Solutions can offer you a product that other payment providers struggle with all under one roof. The integrated High-Risk Payments Page.

This is a payments page designed in your business colours and logos that is hosted by us, with a secure payment gateway with 3DS enabled. This will allow HIGH RISK businesses to distribute the page to merchants that want to sign up to their services, the merchant will complete the transaction and select the amount. This will negate the high percentage of chargebacks that banks wish to avoid whilst giving customers of high-risk businesses a safe and secure way to make payments for their services. This page will have a terms and conditions checkbox to demonstrate to your acquiring bank that we are doing all we can to act as an ethical merchant services provider.

BESPOKE BUILDS

If your project needs a team on it that can share your vision and bring it to life with you then Modern World Business Solutions can help.

This is where our team comes into their own. Our business is based on innovation and imagination, and we love sharing this flair with our clients. We have built a forward thinking and disruptive business in the world of payments, all through our technology and building a platform from scratch. Our team is experienced and well versed in creating websites, CRMs and platform-based technology that stands out from the crowd. With the nature of these builds all quotations are given up front once we have had the consultation and we fully understand what you are looking to achieve. We would then create a technical brief that we would work with you to achieve and sign this off – once this is signed off this is what our team will get to work on.

HOSTING AND MAINTENANCE

After your website is fully designed and ready to set live, you will need to find someone to host the site for you. Of course, you or your merchants are free to host the site wherever you wish and we will be fully supportive whilst getting your site live. However, if you would like Modern World Business Solutions to host the site, we can do this for you no problem at all. This transaction is done separately from the build of the website and the fee will be collected directly from MWBS.

These fees are Monthly, and the commissions attached are one offs, the packages are yearly contracts.

Hosting Fees

Monthly Maintenance Package

Once the site is live it's important that it's kept up to date and maintained fully. We at Modern World Business Solutions can offer a maintenance package that will give you peace of mind that your site is always maintained. Within this package we will make changes to your site, fix bugs and just be that support arm that you need to keep your website working for you at all times. We would highly recommend taking a maintenance package so you can keep your website relevant at all times with fast, proactive changes when required.

Please note – that once a website is signed off and delivered to a client any additional work on the site thereafter if a maintenance package is not taken is chargeable.

These packages are yearly contracts.
